

Hi,

October 5, 2010

I'm having what my cardiac surgeon suspects will be a quadruple bypass operation on the 15<sup>th</sup> of October. I am hoping for a rapid recovery so I can get back to doing all the fun things that Marylou and I enjoy doing.

On a lighter note, I am in the process of redesigning the bangor59.com website. What we have now is OK but it was planned to be just a website for our 50<sup>th</sup> reunion. It has now grown to include many other Bangor High School Class of 1959 activities and so it really does need a new look. It will have everything that the current website has now but it will be organized so that it will be easier to use and for you to find items of interest. If you have any suggestions, please pass them along to me.

Jim McDonald
