

Judy (Hasey) Nisbett reports that she just heard from Betsy (Brewester) Case that Kibbie (Carlisle) Schultheis will most likely be headed for Mass General by ambulance on Monday (Feb. 15th). She's had a lot of tests at EMMC and they are still unsure as to what is wrong with her.

Earlier report (late January) was that Kibbie had been in the hospital in Bangor for the past couple of weeks. She was in ICU with pneumonia in both lungs and was intubated for over a week. She is now stable in a regular room and doing fairly well.
